

NOTE: *The speaker is allowed to start this speaker text during the entrance of our band. Our advice is to start when the long line of musicians is formed in the centre of the field and turns into an diagonal line and the musicians take their starting position sitting on their knees. Thank you very much!*

Seasons

The band takes you on a journey through the year. A journey full of lovely music, that is perfect for the time of the year and matches the four seasons we know, spring, summer, autumn and winter.

Central to this are the beautiful themes of Vivaldi's 'The Four Seasons'. These famous melodies are mixed with film music, pop music and well-known traditionals. For sure, you will recognize The Flight of the Bumble Bee, the Malaguena, Summertime, November Rain, Frozen, the Nutcracker Theme and the music of the most beautiful time of the year, Christmas time.
